A PERSONAL MESSAGE
from **Mr. M. J. SPIEGEL**

Dear Customer—

Your big Spiegel Catalog, your personal Credit Trust Fund and Prudential Life Insurance can open a wonderful new way of life to you. I'd like to repeat the story of Budget Power and show how this thrifty, modern credit concept can help you more than ever.

Peace of mind is one of the most important things in life. Lots of folks say—one way to secure peace of mind is to stay out of debt. And sometimes they're right! But if, in the effort to keep within a budget, families go without many of the big—and little things that make life worth living—they sacrifice *another* kind of peace of mind—

The peace of mind that comes with giving your loved ones everything for a happy, full, rich life—right here and now!

The security of "having," without waiting, scrimping and saving. Without missing the many social and business advantages that a nice home, smart clothes, modern comforts can give you.

SPIEGEL WAS FOUNDED ON GOOD THINGS IN LIFE!

I've dedicated my life (as did my Father and Grandfather before me) to helping fine, honest American families enjoy better living.

TIMES CHANGE...NOW THERE'S MORE TO ENJOY

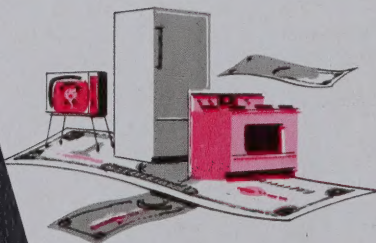

Today the higher standard of living carries with it an obligation to live better and enjoy a richer life. And no matter how fine the values we have to offer, folks just can't seem to get enough of what they want...soon enough.

Every year, more and more families across the nation join the Spiegel Budget Power Plan and begin using their Credit Trust Fund. Budget Power helps them enjoy the peace of mind that comes from owning and enjoying a fair share of the wonderful products that make America the best place in the world to live.

YOU CAN START USING SPIEGEL BUDGET POWER* TODAY

Under this plan we have set aside for your use a Perpetual Trust Fund that our company has invested in your good faith. To be drawn against as often or as seldom as you like—to enable you to have more of the things you need and want—NOW—without waiting till you save the cash—without disturbing savings.

Budget Power is easy to use, for you can buy anything in Spiegel Catalogs on the same low terms...terms that give you up to 50% more buying power than when the plan was first announced. For example, \$5 monthly buys up to \$100 today. You can use your credit to the full and still keep monthly payments low. "Add-ons" are convenient, since there is no down payment except on the first Budget Power order when 10% down payment is asked. Use your Fund for life, secure in the knowledge that Prudential Insurance protects your family up to the \$1000 limit.

YOUR BUDGET POWER MONTHLY PAYMENT

If you use this much of your Credit Trust Fund—	\$100	\$120	\$140	\$160	\$180	\$200
Your regular Monthly Payment will be only—	\$5	\$6	\$7	\$8	\$9	\$10

Your low monthly payment covers merchandise, shipping charges, and the

**YOU CAN ORDER TODAY—USING ALL OF YOUR FUND
OR ANY PART OF IT THAT YOU NEED**

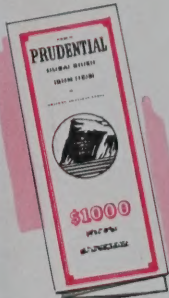

No matter how often you order, you have only one low amount to pay each month. You decide how much of your Fund to use—and you pay only for what you are using. The monthly amount opposite YOUR Credit Trust Fund figure in the table below is what you send if you draw on your Fund for the full amount, and it also shows what the payment will be for smaller purchases.

YOUR FUND REPLENISHES ITSELF

Your CREDIT TRUST FUND gives you CONTINUOUS buying power. We set aside an actual amount of credit for you—and your credit at Spiegel is always good up to this full amount. You always know just where you stand. Every time you buy, you draw out of your Fund...but every payment you make goes right back into the Fund, ready to be used over and over again. Add on new orders any time ...as long as the total you owe us does not exceed the amount of your Credit Trust Fund.

YOU HAVE PRUDENTIAL LIFE INSURANCE UP TO \$1000

Prudential Life Insurance is part of the Budget Power Plan because we want our customers to use all the credit that is available to them without worry about "going into debt." Should death take the wage earner in your family, Prudential pays your Spiegel Account—up to \$1000. With millions of Spiegel customers covered by Prudential under this group plan, it is possible to provide this valuable insurance protection, with no medical examination, at no added cost to you—now or forever.

YOUR BUYING POWER IS INSURED FOR LIFE!

Spiegels exclusive BUDGET POWER PLAN with its Trust Fund and Prudential Life Insurance allows you to enjoy the things that seemed beyond reach—without financial worries—NOW. It is founded on the belief that every American with a steady income needs to furnish his home comfortably, has the right to dress well, live fully and get the greatest buying power out of his income. I sincerely urge you to make full use of your BUDGET POWER TRUST FUND...TODAY.

M. J. Spiegel

How the BUDGET POWER* PLAN Works

1. Your Credit Trust Fund is like a lump sum of extra money deposited in your name, always ready for use.
2. Your credit at Spiegel is always good up to the full amount of your Credit Trust Fund. You always know just where you stand. Every time you buy, you draw out of your Fund...but every payment you make goes right back into the Fund, ready to be used over and over again. Add on new orders at any time...as long as the total you owe us does not exceed the amount of your Credit Trust Fund.
3. You need never repay the original Fund as long as you keep up your regular monthly payments.
4. Your monthly payments are governed by the size of your purchases. The minimum payment is \$5.
5. Your family is protected at no cost to you with Prudential Life Insurance covering any unpaid balance up to \$1000.

**Enjoy The Social And Business Advantages That
A Nice Home And Smart Clothes Can Give You**

Your Spiegel Budget Power Counselor is at your service. He is an expert in stretching a steady pay check regardless of the amount. He can help you have better living and more of the things you want without waiting, and without worry. Some of the questions that may come to your mind are answered below. If your question is not included, please feel free to write your Budget Power Counselor.

Can you give an example of how Budget Power Plan works?

Take a customer who has a Credit Trust Fund of \$240. The Table on Page 4 shows that this represents a monthly payment of \$12.

Suppose the original purchase was for \$240 worth of merchandise but the unpaid balance on the Account is now only \$105. Subtract this from the total Fund of \$240, and the difference, or \$135 in credit, is available for use without increasing the monthly payment by one penny.

This customer can send a \$135 order today. He will then be using the full amount of his Credit Trust Fund. Next month, when he sends his regular \$12 payment, it will go back into the Fund—so he can send a \$12 order at the same time, if he wishes. Or he can wait two months, and send a \$24 order, and so on.

What if there is nothing owing on the Account at present?

If there is no unpaid balance on the Account, the customer in example above can order up to the full amount of \$240. The monthly payment would be \$12.

Is it necessary to use the full amount of the Fund?

Certainly not—you use only what you want to use, and pay only for what you are using.

Example: A customer with a \$300 Credit Trust Fund may wish to order \$100 worth of merchandise at this time. The monthly payment would be only \$5—that's the payment for \$100 worth of goods.

Can I place a Budget Power Plan order of less than \$10?

Our one rule—Budget Power orders must be for \$10 or more. Suppose you have \$5 left in your Budget Power Trust Fund right now—and your monthly payment is \$5. Next time you send a payment, you can send a \$10

order—and after that, you can, if you wish, send a \$10 order every other month since your regular monthly payments would keep building up the Budget Power Trust Fund.

Why did you send Prudential Life Insurance at no added cost to me?

With millions of Spiegel customers covered by Prudential under this group plan, it is possible to provide this valuable insurance protection, with no medical examination, at no charge to you, now or forever. Spiegel pays the premiums. The Prudential Life Insurance protects your family and gives you peace of mind. We made it part of the Budget Power Plan because we want you to keep on buying—using all the credit that is available to you—as long as you desire—without worry about “going into debt.” Should death take the wage earner in your family, Prudential pays your Spiegel Account—any unpaid balance up to the \$1000 limit.

How long do I have to complete my payments...and what do you mean by “service charge”?

There's no need to set a time limit when you have Budget Power. You need not wait until you have paid for one purchase before ordering again, because every payment you make goes back into your Credit Trust Fund to be used over again. The monthly service charge of $1\frac{1}{2}\%$ (minimum 50c) is the very nominal sum you pay for the credit you are using. It is figured on the amount owed us as of last statement. As balance decreases, service charge is reduced. There are no carrying charges.

How do I know how much I owe?

Each month, we mail you an accurate statement, showing purchases, payments, refunds, and also the balance on your Credit Trust Fund. You can check the figures at a glance, and know exactly where you stand.

love what Dacron does for me...love its

1 Love my BARE-ARMED blouson. Especially when it's light and breezy, shantung-weave Dacron polyester and cotton batiste. Lined top has jewelry-inclined neckline; skirt's a cool whirl of stay-in box pleats. Back zipper. Hand wash alone; wrinkle-shy, little iron. Ice Blue or Apricot. Miss, Juniors: 9-10, 11-12, 13-14, 15-16, 17-18. (1 lb. 10 oz.) 10 W 1586. State size, color.....9.97
TALLS (over 5 ft. 7 in.): 12, 14, 16, 18, 20. 10 W 1587. Ice Blue only.....10.97

Love the look of silk crepe, its softness and texture, so I'm bound to adore Dacron
"WHIPPED CREAM"

3 Love the FROSTY WHITE PIPING that brightens my charming little pouff of "whipped cream" crepe. It's the man-made image of silk crepe, in textured Dacron polyester that stays wrinkle-free all day long! Love the dangly rope sash... and the crystal hip pleats that are there for keeps. Back zipper. Hand washable... rarely needs ironing. Sky Blue (shown) or Apricot. Miss, Junior sizes: 9-10, 11-12, 13-14, 15-16, 17-18. (1 lb. 10 oz.) 10 W 1598. State size, color.....9.97

4 Love the SOFT-FOCUS PRINT in my charming blouson 2-piecer. Little sleeveless blouse ties at the waist, tops a skirt (side zip) that's a flutter of stay-in pleats. Soft, light as a spring breeze in textured Dacron polyester "whipped cream." Feels like silk, yet is carefree as only Dacron can be! Hand wash; wrinkle-shy, little iron. French Blue (shown) or Apple Green (med.). Miss, Juniors: 9-10, 11-12, 13-14, 15-16, 17-18. (1 lb. 10 oz.) 10 W 1596. State size, color.....2-pc. set 12.97

DU PONT LYCRA is the best friend your figure's ever had!
It makes a girdle as light as your nylons . . . you're so cool,
so free you forget you're wearing one, even in 90 degree
weather. Yet Lycra is more controlling . . . slims you like a diet,
outlasts all other elastic, and can be washed in the machine.

FOR EVERY FIGURE TYPE THERE'S A PERFECT GIRDLE

MAIDENFORM'S

"action back" girdle with
Lycra always stays in place

You'll never tug or pull at your girdle again once you wear "Concertina" by famous Maidenform. Absolutely wonderful—can't slip or ride up because of the sensational open weave power net insert in back that moves and stretches with you. Extra "give" makes waistband and leg stay where they belong.

All this—plus the lightweight control of Lycra! Choose from 3 lengths, all with persuasive power net (nylon, rayon and Lycra spandex) and tummy-firming satin elastic front panel (acetate, cotton, Lycra and nylon). Panty girdles with nylon tricot crotch; detachable trolley garters. White.

Fit hips 8 to 12 in. over waist. Waist sizes: 26-28-30-32 in. How to Measure, pg. 541. State waist, hip sizes.

they take the work out of walking with a FORWARD THRUST SOLE

a full pound lighter than other work shoes SPIEGEL'S FINEST

A new concept in comfort and walking ease for the man who must be on his feet long hours, the rocker bottom shoe that literally thrusts foot forward! The "rocking chair" effect begins at the ball of the foot (or weight-bearing point) where the springy cushion crepe sole is thickest; then as the sole gradually tapers to the toe, the foot is actually rolled forward, like the motion of a rocking chair. Unique arch support area provides

better distribution of body weight to lessen fatigue. Slanted sole lessens usual vamp bending and keeps rich veal leather uppers new looking longer. Comfortable full glove leather lining; air cushion innersole.

WETPROOF SEALED SEAMS

no stitches! no nails! no holes where water can seep in because they are vulcanized

Oxford 6.88 6-Inch 7.88 8-Inch 9.88

These Permatite-sealed sport shoes are so painstakingly constructed that water just can't get in! Electronically-heated molds, made to fit each last precisely, permanently bind sole and upper together under high pressure... creating a completely nail-less shoe that's perfect protection for wet jobs. Expertly crafted of only top-quality materials. Ranchman steerhide upper is one of the toughest, sturdiest leathers available, yet extra supple thanks to special tanning process! And it keeps its softness and flexibility even after long wear! Skid-resistant sole and heel are famous Neoprene crepe, specially developed by Du Pont to fight deterioration from oil, grease and chemicals that stiffen and crack ordinary soles. No details of inner construction have been

overlooked: vamp lining is Pacifate® drill that guards against odors and fungi; insole is smooth leather. All styles have moccasin vamp to provide important extra roominess at the toe. Tough rawhide laces. 6-in. and 8-in. styles have full-covering gusset tongue. Amazingly high quality for such low prices!

Sizes: Wide width in 6, 6½, 7, 7½, 8, 8½, 9, 9½, 10, 10½, 11 and 12.

TOUGHEST SOLES MADE

they wear like a truck tire because they're made of Seiberling nylon cord

Oxford 5.44 6-Inch 5.84 8-Inch 7.94

Amazing! Such remarkable durability costs so little. These rugged nylon cord soles and heels resist the harmful effects of moisture and barnyard acids; provide a non-slip surface for firm footing. The upper defies wear, cold and dampness because it's specially-processed double-tanned, oil-treated leather; yet, it remains so soft and flexible your feet feel comfortable all through the day. Carefully made with fine quality materials and such important extra details as triple-stitched vamp that's fully lined in germ-resistant Pacifate drill... safeguards your feet from athlete's foot, odors and fungi. Longwearing grain leather insole adds more

foot comfort; steel arch shank firmly supports your foot. Famous Goodyear welt plus sturdily-molded counters means shoe retains its shape and good fit longer.

POLAROID

1-2-3-4—just count to ten and open the door. Get magic results without computing or focusing

Compact electric eye outfit

"J33" Polaroid Outfit **77.88** only \$5 monthly

Takes smaller 2 3/4 x 3 1/2-in. pictures, just the right size to slip into your wallet. Has all the automatic features of J66.

Polaroid's thrifty J33 makes it so easy to take superb pictures... there's no focusing, no coming. The electric eye selects the correct exposure for you automatically and you have the finished picture 10 seconds after you snap the shutter! Expensive light meter or flash attachment to them—they're built right in. If light-level indicator signals insufficient light, just swing out the flash gun. AG-1 flash bulbs pack into little space and easy on your budget. Light and dark control enables you to make high or low keyed pictures. Outfit includes: J-33 camera, leather case, 1 roll 3000 film, 6 AG-1 bulbs. Mailable. (14 lbs.) \$5 W 4280... \$5 monthly... Outfit 77.88 \$5 W 4296M. Camera only. Mail. (8 lbs.)... 67.40

Our most popular electric eye camera outfit

"J66" Polaroid Outfit **94.88** or \$5 monthly

Takes 3 1/4 x 4 1/4-in. photos, 4 1/2 ft. to infinity with no adjustment. Shoot as close as 32 inches with simple adjustment. Built-in flash uses thrifty AG-1 bulbs. Priced low for so many features.

② Polaroid J66 is fully automatic—you can't help but take perfect pictures! Just perform four simple operations, numbered right on the camera, and in only 10 seconds you have a sharp, clear photo to enjoy. Electric eye automatically adjusts shutter speed for perfect exposure. Normal operating aperture of f/32 provides enormous depth of field, your subject is always in focus. Pop-up viewfinder lets you see scene as it will appear in picture. When light-level indicator signals more light is needed, swing out built-in flash gun (concealed in camera's front). Small AG-1 flash bulbs take up little room in pocket or bag. Special light-dark control lets you select high or low keyed pictures. Ultrafast 47-3000 film takes indoor pictures in ordinary light. More sensitivity without sacrifice of sharpness or clarity. Eight black and white prints per roll. Outfit includes: J-66 camera; top-grain cowhide fitted case; 2 rolls of 47-3000 film and one dozen AG-1 flash bulbs. \$5 W 4325. Mailable. Shipping weight 13 lbs. \$5 monthly... Measure Back Circumference, all around the fullest part of the back, above the arms

How To Order...

SLIPCOVERS FOR CUSTOM-LIKE FIT

SELECT THE STYLE, from the sketches shown below, which most nearly matches your own furniture. Be sure to consider the cushion shape, whether Straight or "T"; the back, whether plain or wing; the arm, whether curved, flat or open.

Please note: the Hide-a-Bed, Sofa Bed and Studio Couch slipcovers are not interchangeable with Davenport slipcovers that do not open into beds.

MEASURE BACK CIRCUMFERENCE of furniture all around the fullest part of the back, above the arms. Check this measure with sizes offered. State this measure on order. Slipcovers will not fit furniture larger or smaller than the sizes offered.

Please note: for Studio Couches, measure width across top of seat only. For Wing Chairs the width of back, but do not include the wings.

THE PERFECT COMBINATION OF DRAPERY AND LINING to give you longest wear with minimum care! We've taken luxuriously textured, skillfully screen printed two-ply Fiberglas and lined it with weighty, closely woven White Fiberglas Satin. You'll enjoy deeper, more dramatic draping and extra insulation. Lovely woodland scenic pattern adds spacious beauty to all your windows. Because these draperies are miracle 100% glass fiber, they keep their handsome looks indefinitely—won't stretch or shrink, resist fire and mildew—and moths won't touch them! Resist fading from sunlight and fumes. Best of all, they're fully washable by hand; drip dry in just minutes—and they never need tedious ironing or costly cleaning. With the money you save on cleaning bills—and Spiegel's low prices—you can enjoy new beauty from wall to wall!

Superior tailoring: extra triple-fold pinch pleats per pair for full draping; 4-inch buckram-stiffened tops keep headings neat; 3-in. bottom, 1-in. side hems. Lining is custom-sewn to accommodate slip-on type hooks. See How to Order Drapes, page 548.
Colors: Brown/Melon on Sand or Turquoise/Green on White. State catalog number, color.

NEW DECORATOR STYLING AND COLORS IN LUXURIOUS COTTON—at prices you never dreamed possible for such beautiful draperies! Unusually smart, modern geometric stripe pattern is equally attractive in shortie style sill-length or full-length sizes. Heavyweight, richly textured Shagbark-weave cotton drapes dramatically, even without lining. Texture adds depth to exciting colors; fabric is especially easy to care for . . . washable alone; little—if any—ironing.

They're not only handsome—but happily versatile. Twenty different width and length combinations solve decorating problems quickly . . . take even odd-size windows in stride. Three dramatic new color moods give a lift to your decor scheme—and stay bright after many washings.

Check the quality tailoring features rarely found at these low prices: 4-inch buckram-stiffened tops; triple-fold pleats; 3-inch bottom hems and 1-inch side hems. See How to Order Draperies, on page 548.

No-Iron, No Stretch "Everlon" Rayon Panels

Lovely, sheer rayon panels will add window charm reminiscent of the elegance of yester-year with modern-day easy-care beauty that's flattering to any room setting. Now at Springtime prices ... remarkably low at Spiege.

Patterned with the rich look of lace and treated with "Everlon" finish to resist soil, water, mildew and unsightly stains. Three terrific time-saving features: no stretching, no starching, no need to iron—your curtains keep that sparkling fresh, crisp look. Eliminate washday "blues"; simply wash and hang; dries wrinkle-free in minutes. 3-in. bottom; 1½-in. side hems.

Color: Ivory White. See How to Order, page 548.

"Swiss Chalet" Scranton Cotton Lace Panels

Now, delicate lace without time consuming attention! Elegant combed cotton lace panels by Scranton have the gracious look of the 19th century, but with none of the old-fashioned wash-day headaches. Thanks to fabulous "Fabtrol" permanent finish, panels keep their size and shape through countless washings and shrinkage is less than 2%.

Woven in a three thread interlocking construction of the finest carded and combed cotton yarns—to assure long wear. Gracefully scalloped sides and bottom; rod pocket hemmed tops shirr on rod. So fuss-free, just hand wash, drip dry, needs no ironing or stretching.

Prestol Draperies
are fully lined

Now for the first time, you can make your unlined draperies (even fiber-glass) into fully lined draperies in just minutes—without sewing! Just slip the button holes in liner over your present drapery hooks, insert clips in side hems and your drapes are elegantly lined. For a fraction of the cost you can now have the beauty, the full draping qualities, the protection from dust, dirt and light of custom-made, ready-lined drapes!

"Prestol" add-a-liner fits drapes from 48-in. to 52-in. wide per pair. For wider width drapes order additional liners and clip together to form a continuous lining.

COTTON TWILL: protects your draperies for longer wear. Hand washable. White.

11.88 19x25-in.
Each in 2's

Here's a lifetime of sleeping comfort—and the most luxurious pillow we know of. That's because it's made of "live-
picked" goose down—nature's finest. More costly because it's available only in limited quantities. Snowy-white,
superbly soft, completely odorless... the finest you can own. Covered with imported cotton satin-striped Damask
ticking plus a down-proof cotton interlining—then carefully corded for extra long wear. Mailable.

HOW TO MEASURE FOR VENETIAN BLINDS

Always use a wood or metal ruler when measuring your windows for blinds—cloth tapes stretch. Measure each window separately; sizes may vary even in the same room. Measure to the fraction of an inch; state which is width; which is length.

To Hang INSIDE Casing

(C) Width; Measure EXACT distance between points where brackets go—must be at least 3 inches wider than frame opening to cover sides. (D) Length; Measure vertical distance from top of window frame to sill.

To Hang OUTSIDE Casing

(C) Width; Measure EXACT distance between points where brackets go—must be at least 3 inches wider than frame opening to cover sides. (D) Length; Measure distance from top edge of frame to the window sill.

HOW TO ORDER CUSTOM MADE BLINDS

Please note: custom-made blinds are made to your EXACT MEASUREMENTS . . . cannot be altered if incorrectly ordered. State tape color, slat color, width and length. All widths listed are for headbox plus brackets. Slats are cut 1/4 to 1/2 inch narrower to avoid marring your window casing.

HOW TO ORDER NUMBER OF 9x9-INCH TILES NEEDED

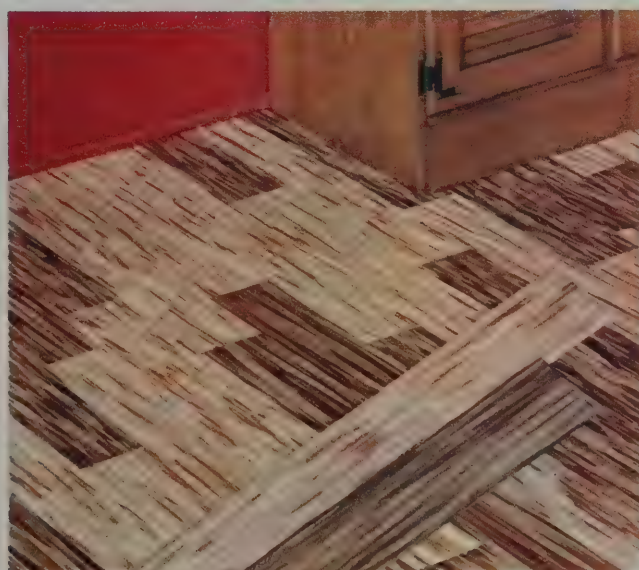

ESTIMATE TILES YOURSELF: Measure
length and width of floor in inches. Divide
each figure by 9 (tile size) to get number
of tiles for each side of floor. (Drop frac-
tion and add 1 tile.) Multiply these 2 num-
bers (length x width) for total needed.
Example: (96x126-inch floor) 96 divided
by 9 = 10.7 tiles (increase to 11); 126 divided
by 9 = 14; 11 multiplied by 14 is 154 tiles.
For additional or irregular areas sep-
arate. For 2 or more colors: tint pattern
on checked paper, count number
of tiles for each color.

TILE ESTIMATING. Send diagram of
showing length, width measurements;
for more colors, show pattern. State
name and color of tile you wish. Write to
Dept. 156.

**"Instant play" transistor auto radio—
custom built to fit your car perfectly**

Manual Low as **43.75** or \$5 monthly Push Button Low as **49.75** or \$5 monthly

Get performance equal to or better than new car equipment—save 20% or more by installing it yourself. Designed to fit perfectly into space provided by manufacturer. Installs quickly, easily—no holes to drill. All fittings, instructions included.

Transistor components replace vibrator power transformer for finer, more powerful reception, longer service. Draws only 1 3/4 amps from battery which is 1/2 that of tube-type radios. Plays instantly—no warm-up wait. Both models have illuminated easy-to-read slide-rule type dials. Push-button model also tunes manually. 7 tuned circuits for maximum selectivity. Tuned RF stage compensated full range control. Alnico permanent magnet speaker. Automatic volume control keeps distant and local stations in balance. Can be used with rear seat speaker. (See speaker kits, bottom of pg.) Antennas not included. See items 6 thru 9 at right. Mailable.

Manual Low as **44.50** or \$5 monthly Push Button Low as **52.50** or \$5 monthly

Expertly crafted by Motorola engineers to bring you the finest in car radio performance. Designed to fit your car perfectly in space provided by manufacturer. Save money by installing radio yourself! No expensive tools needed—no holes to drill. Comes complete with fittings and easy-to-follow instructions.

Quieter performance...all noise normally caused by vibrator is eliminated. Exclusive Motorola "eliminoise" circuitry virtually banishes high tension wire interference for noise-free listening.

Exclusive "Golden Voice" Alnico V speaker is precision matched and balanced to circuitry for hi-fidelity tone quality. Full variable tone control from rich bass to shimmering treble. Built-in volume control—no need to reset volume level when you change distant stations. Pulls in weak or distant stations to same level as local stations.

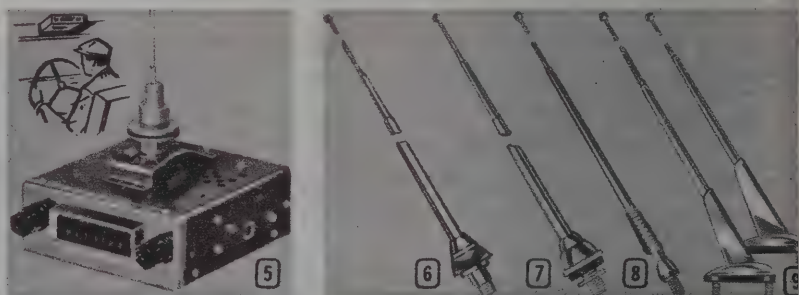

3-Microvolt sensitivity of Motorola car radios surpasses the performance of many high priced home radios. Added power rejects unwanted signals for sharp, clear reception even in hard to focus fringe areas. Transistors virtually eliminate 60% of all potential service problems in ordi-

nary radios; virtually indestructible; cooler chassis for better performance.

Easy to read slide-rule type dials. Push-button models can be tuned manually. Can be used with rear seat speaker (see speaker kits, bottom of page. Antennas not included, see (6) thru (9) below. Mail.

NEW! Shock-proof, fade-proof
SCOTCHGARD treated JETSPUN
 repels stains and soil—cleans
 easily, looks better longer

Low As **19.75** Full Set

The new Jetspun® Futurama. Hard-wearing, weather-repellent
 tenacity rayon fabric, now treated with Scotchgard® to
 resist stains and keep new looking longer than ever before.

The rich feel, striking beauty and luxurious comfort of Jetspun
 price set it apart. Mira-Glow Silicone finish makes sliding
 easier! Longer wear and an almost permanent new look are
 insured with the higher thread count and fade-proof colors.

Stitch-free, scuffproof, burn and dirt-resistant too. Woven to
 "breathe" for year 'round driving comfort—never hot or cold.
 Reinforced, simulated leather including entire back
 front seat and all skirting. Gleaming, stretchable DuPont
 Mylar beading accents the double-needle sewn seams.
 Handsome channel-quilt bolster adds the final 1963 touch.

Custom-tailored to fit your particular make and model car. New-
 type drawstring construction lets the cover hug every curve
 of the seat. You are assured a true upholstered look as well as
 a quickest, easiest installation. Instructions included.

Interior Decor Colors: Blue, Green, Red, Black or Brown, each
 with contrasting trim. Mailed promptly from Fremont, Ohio.

NEW! Deauville quilt metallic-
hued SOLID COLOR completely
 captures the 1963 custom-look
 of all-leather car interiors

Low As **24.95** Full Set

Your car interior can now have a truly customized, genuine
 leather upholstery effect with the new, monotone Deauville de-
 sign quilted seatcover. New car styling so authentic, plus tailor-
 ing so perfect, you will soon forget it is a seatcover!

This beauty is not to be confused with ordinary seatcovers . . .
 the Deauville-design quilting extends from over the top of the
 back rests all the way to the bottom of the seat cushions.

The entire cover is of a leather-grained heavyweight simulated
 leather that's fabric-backed for maximum strength.

Each backrest is accented with two embossed Silver Mylar
 crests and all seams are double-needle sewn and beautifully
 topped with gleaming Silver Mylar beading that never tarnishes.

The metallic-hued colors retain their showroom splendor indefi-
 nitely and the entire cover is waterproof, stain and burn resist-
 ant, and cleans so easily with just a wash of a damp cloth. Pliers
 and installation instructions are included . . . new stretchable
 construction simplifies a wrinkle-free installation.

Metallic-Hued Colors: Green, Blue, Red, Charcoal Black or

Brown. Mailed promptly from Chicago factory.

DELUXE SARAN PLASTIC—LONG WEARING

Wonderful woven Saran—one of the toughest seat cover materi-
 als known. It's made to take abuse and woven to "breathe" for
 year 'round driving comfort. Colors are "there-to-stay." Saran
 extends over cushion's front edge for extra wear. Simulated
 leather covers entire back of front seat plus all skirting. Silver
 medallions accent the White crests on both seat backs. Hand-
 some piping on all major seams. Pliers and instructions included.
 Colors: Black, Blue, Green, Red or Brown, all with harmonizing
 trim. Mailed promptly from Chicago factory.

EMBOSSSED PANEL-PUF CLEAR PLASTIC

Just what the new-car owner has been waiting for. Now, "air-
 conditioned" riding comfort has been added to extra-heavy 15-
 gauge clear plastic without losing the "show-through" beauty
 of new upholstery. Permanently vacuum-formed air-puffs assure
 air circulation for year 'round comfort—cool in summer and
 warm in winter. Built-in "Filter-Ray" combats upholstery fading.
 Custom tailored to fit your car perfectly and guaranteed by

Argyles... No Better Tires.

OUR PREMIUM TIRE...

**FAR SUPERIOR TO NEW
CAR ORIGINAL EQUIPMENT!**

**There's a Spiegel
Argyle tire for
every driving need—
every driver's budget**

SUPREME. Guaranteed 36 months. Premium quality—unsurpassed for rugged, day-in-day-out driving and long trips at tollway speeds

SURE-FLYTE. Nylon or Tyrex Cord—guaranteed 30 or 27 months. Best buy for normal, low-speed, high-speed all-purpose driving

CUSHION-FLYTE. Guaranteed for 21 months. Safety, dependability at a moderate price—ideal for short hauls, occasional long trips

STANDARD. In 2 or 4-ply Nylon Cord—guaranteed 15 or 18 months. Our lowest priced brand new tire—outstanding in its class

SPORT-IMPORT. Guaranteed 24 months. Ruggedly built with cool-running Nylon Cord

SILENT-GRIP MUD-SNOW. Guaranteed 30 months. Husky tread bites deep for maximum winter traction—runs quietly on dry roads

THREE-WAY GUARANTEE

1. 90-DAY TRIAL OFFER. FREE replacement... tire will be replaced FREE within 90 days or 3,000 miles, whichever occurs first—if tire fails due to cuts, bruises, fabric rupture, blowouts, rim cuts, separation, etc.

2. GUARANTEED TIME SERVICE. From the date of purchase, should tire fail before you have received reasonable service in months as we have advertised for the tire, we will authorize a local repair for your tire or replace it with a brand new tire, charging you only for the service received on a pro-rated basis. Passenger tires used for commercial purposes are limited to one-half of the regular guarantee period.

3. LIFETIME GUARANTEE AGAINST DEFECTS. If at any time you have the tire it fails due to defects in materials or workmanship—without limit as to months and miles—before tire lifetime (full life of original tread) has expired, we will replace it with a brand new tire, charging you only for the service received on a pro-rated basis.

Use your Big Plus Budget Power... enjoy your tires now and pay just a little each month!

**GUARANTEED
36 MONTHS**

**A PREMIUM BUILT TIRE
THROUGHOUT**

Deeper, wider tread plus low profile design puts more rubber on the road... provides much greater traction on wet or dry surface!

One of the finest tires made anywhere, and our premium tire because of these special features:
Wonder Rubber Tread, the greatest tire discovery in years! Unsurpassed for comfort, safety—test proven to stop as much as 30% faster at 50 m.p.h.
End-Locked Sipe Slots are double angled for all-direction traction—even down to last few miles of tire life.
Tension-Toughened Nylon Cords. Each cord pretensioned for true sizing and better balance... built to take constant torture of high speed driving. Softer tread virtually "flows" over bumps.
Latest Narrow Band Whitewalls are scuff-resistant... lastingly white.

Argyle Highway TRUCK TIRE

NYLON CORD 14.95 6-Ply 6.00-16
Plus \$2.49
Federal Tax

Built to take it on long hauls! Rugged DuPont Nylon Cord body plus extra thick sidewalls reinforce it against cuts, bruises and moisture rot, keep it running longer. Buttressed, ventilated shoulders keep it running cooler at high speeds. A dependable performer for city or over-the-road hauling—broad 5-rib tread is "super-siped" for greater traction and steering ease . . . built-in shock absorber plies soak up bumps.

Argyle All-Purpose TRUCK TIRE

NYLON CORD 21.95 6-Ply 6.00/6.50-16
Plus \$3.16
Federal Tax

Built extra tough for on-or-off the road duty! Newly designed all-weather traction tire delivers thousands of dependable miles—at the lowest cost-per-mile we know of. Stronger Nylon Cord carcass resists moisture, heat and off the road jolts, poundings . . . will take more than one re-tread reducing your tire costs even more. Cleated, siped traction tread bites deep into snow and mud, yet performs quietly on clean, dry roads.

HEAVY-DUTY AMMETER. Don't gamble on "red light gauges", only an ammeter can show exactly how much battery is charging or discharging. Warns of generator, battery or regulator trouble before it happens. 30-0-30 range. For all cars and trucks, clamps to dash. Save—order with regulator (1).
86 W 8964. Shpg. wt. 14 oz. 1.49

IGNITION COIL ... equal to or better than original equipment. Extra-heavy windings, insulation. More turns of wires for needed hot spark for today's high compression engines. Prevents plug fouling, high speed miss; improves engine performance, mileage. Electrically balanced coils for peak performance with minimum battery drain. (3 lbs.)

ALDOR HIGH VOLTAGE SPARK PLUG

Only **1.19** Each in Sets of 6 or 8

Called the spark plug with the "built-in brain" because it automatically adjusts spark to any and every motor condition and driving speed. Works like the thermostat control in your car or home. No oil or lead fouling—no gas-wasting pre-ignition at high speeds. Diamond hard electrode won't pit or burn . . . gives higher voltage firing tip for instant starts under all weather conditions. Specially ribbed heat dissipating insulators are same type widely accepted by aircraft industries.

2 types: Special—a Cold Plug—for new, hi-HP, hi-compression engines or older cars with tight, hi-compression engines. Regular—a Hot Plug—fires in oil for worn engines using oil. Gap gauge incl. See How To Order, left. Sh. wt. 9 oz. each.
86 W 8912 . . . Each 1.25 . . . 6 for 7.14 . . . 8 for 9.52

HOW TO ORDER SPARK PLUGS. 1. State catalog number and quantity of plugs wanted. 2. State make, year, model and number of cylinders. Also state number on your old plugs. On Ford V-8 1957-59 and Chevrolet 1959-62 state engine number. 3. State service type. (a) Cold for motors that run hot . . . for high speeds,

high compression, hot climate, long hauls and heavy loads. (b) Normal for average driving, with motor in good condition. (c) Hot to reduce fouling due to motor burning oil, low compression engines, slow speeds, start-stop driving, and cold climates. 4. For Aldor Automatic plug only, if car burns oil, order Hot Plug.

AND BETTER PERFORMANCE

STRAIGHT-THRU GLASS PACKED MELLOW-TONED MUFFLERS

① Lessen back pressure—give more HP, gas mileage. Fiberglass packing withstands hot blast of exhaust gases. Fit your present exhaust, tail pipe perfectly. Order clamps (item 3). NOTE: (L) in table means left (driver's) side, (R) right side.

Spiegel Precision Bilt. Heavy gauge steel construction gives long wear. Deep-throated mellow tone Hi-Efficiency Muffler. All new, patented chambered design with "Turbo-Jet" diffuser—provides ultimate in distinctive, controlled sound—without curbing power! Extra heavy gauge steel is alloy coated to resist rust, corrosion; triple locked end caps. Guaranteed by manufacturer for 18 months.

Precision-bilt full chrome or chrome-oil piston ring sets—self-expanding, pre-seated for fast, positive oil control!

FULL CHROME PISTON RING SET—the finest set available. Stainless steel self-expanding oil ring with 2 chrome-plated steel segments, pre-seated for immediate adjustment to cylinder wall conditions. The 2nd ring is cast iron with tapered face, chrome-plated steel segment and one steel expander. Tapered-faced, pre-lapped chrome edged top ring for non-scuffing long life. See size, ordering information below.

CHROME-OIL SET. Same instant oil control and fine quality as above except the top compression ring is solid cast iron.

Sizes: Regardless of age of car or mileage, order standard size if cylinders have never been rebored. If you are not the original owner of the car, it can be determined if cylinders have been rebored simply by removing engine head and checking oversize mark on top of pistons, or measuring cylinder carefully. Sizes are: standard to .019-in.; oversizes, .020 to .029; .030 to .039; .040 to .059; .060 to .079.

To Order Piston Rings, state: (1) Catalog Number. (2) Make, Year, Model. (3) Standard or amount of oversize up to .079-in. (4) For oversize write "F" in front of Catalog Number. NOTE: Standard mailed from Mail Order House. Piston rings for oversize and all "Cars Not Listed Above" mailed promptly from St. Louis, Mo. Order from table below.

REPLACEMENT PISTONS WITH OR WITHOUT EXPANDER RINGS

Perfect replacements of originals—with or without flex-expander rings. Heat treated, low expansion aluminum alloy pistons, precision machined. Finished on precision cam grinder. Heat treated steel pins; precision ground-lapped. Flexible ring sets composed of torsional and/or taper faced compression rings and flexible cast iron oil ring. 2-piece flexible oil ring with Swedish steel expander. Chromed set gives greater non-carbonizing, wear-reducing and non-scoring service. Order pistons alone or with cast-iron Flex-Expander rings or Chrome-plated Flex-Expander rings (see table below).

Sizes: Standard, .020, .030, .040, .060 oversizes. Shipping weight for pistons alone, 2 lbs. each. Average shipping weight for complete set, 15 lbs. Mailable from Elgin, Illinois. Allow 10 days, plus time in transit.

To Order: State (1) Catalog Number, (2) Standard or oversize wanted. To check oversize, take exact micrometer measurement of cylinder at bottom of bore; if reboring, bore to exact oversize; order pistons of same oversize.

STANDARD BONDED RELINED BRAKE SHOES—EASY TO INSTALL

7 Equal to or better than original equipment. Get more useful braking area for faster, safer stops; specially engineered to withstand tough, stop-and-go city driving as well as rugged mountain driving. Linings bonded to shoes. No drilling or riveting necessary. Only selected shoes are used for rebuilding, fitted with brand new, deluxe quality

linings. Linings cement bonded to shoes to provide perfectly smooth braking surface. Finest friction materials and resin binders used, correctly engineered to weight of car and differences in braking systems. Guaranteed 25,000 miles. Before ordering, read exchange ordering instruction on page 502. Order from table of listings below.

OUR FINEST! PREMIUM GROOVED BONDED BRAKE SHOES

8 Lined with genuine Gatte brake linings—far superior to original braking equipment on new cars. Special patented groove feature makes these the best and safest brakes for your car . . . safety and protection you can't afford to be without. Special groove eliminates dirt, grit and foreign matter that would ordinarily hamper smooth, efficient braking action . . . brake surfaces are kept clean to provide a smooth, uniform brake action, reduced brake wear. Cooler running. Cool air, circulated by the grooving onto drum surface helps keep brakes operating temperature at a low, safe level . . .

results in terrific increase in brake life. During rainy weather, water is automatically discarded and the prime effectiveness of your brakes is safely restored. Ideal for automatic transmissions and cars with power brakes. Will out-perform and out-last ordinary brakes on all cars. Easy installation. No drilling or riveting. Save by doing the job yourself. Save even more by taking advantage of Spiegel's terrific trade-in allowance on old brake shoes. Guaranteed 40,000 miles. See Spiegel's trade-in allowance in table below. Read exchange ordering instructions, page 502.

1 ELECTRIC FUEL PUMP FOR ALL CARS. Eliminates vapor lock. Saves gas by automatically feeding right amount of fuel to carburetor at all times—no flooding or starving. Goes to work filling empty fuel lines the instant ignition is turned on... gives easier starts, reduces battery rundown in zero weather. Automatically adjusts to engine conditions. Use as auxiliary pump or as replacement for present mechanical pump.
86 W 4019. All 6V. cars except Ford 1940-51. Sh. wt. 5 lbs. 16.9
86 W 4021. All 12 Volt Cars. Shpg. wt. 5 lbs. 20.9

2 DUAL ACTION Fuel Pump. Guaranteed for 50,000 miles of trouble-free service. Exact replacement for present dual-action, and new replacement for single-action pump. Better than original single-type pump.

Provides constant fuel flow plus vacuum booster for wind-shield wipers, accessories... no power loss on acceleration. DuPont "Fairprene" diaphragm remains flexible in coldest weather.

Heavy-duty valve-in-cage construction. Long mounting bolt included for simple installation where dual is optional. Order from table at right. Average shipping weight 6 lbs. each.
Each only 6.25

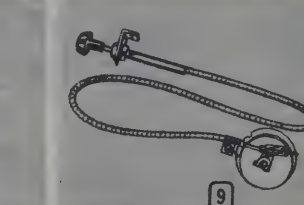

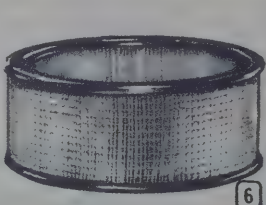

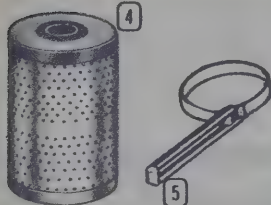

3 SINGLE ACTION Fuel Pump. No need for your car's carburetor to starve from lack of fuel when a replacement costs so little. Brand new, fine quality—same as original equipment. Guaranteed for 30,000 miles of trouble-free service. Durable Neoprene diaphragm; precision calibrated for proper fuel flow and pressure. Installs quickly, easily. Order from table at right. Average shpg. wt. 2 lbs.

We prepay transportation on Budget Power orders and include it in your account.

In ordinary sockets grain is straight—walls must be thick to withstand strain. Sockets can't be used full depth in tight places—there's less grabbing area, more slipping.

In Husky sockets the grain follows contour of metal—adds super strength. Walls can be made thinner to fit in tight places, let sockets fit over nuts to full depth for a sure, snug grip.

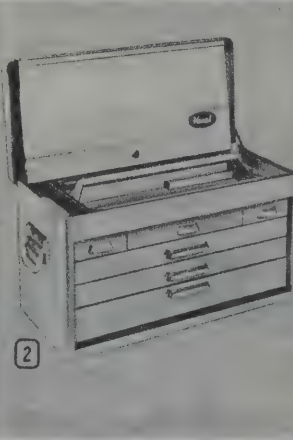

1 HUSKY 89-PIECE SOCKET-TOOL SET. For nearly all repairs. Three reversible ratchets—one for each drive set!

DO-IT-YOURSELF Interior Paints—GO ON

The miracle odorless paint that never needs thinning or mixing... will not drip or spatter

only 4.97 gallon flat finish

Won't drip from brush or roller

No fussing, no messy clean-ups! Just once over and you're thru

Miracle homogenized paint with an alkyd and oil base. A modern paint discovery that's gelled and never needs stirring or thinning. Color stays suspended in perfect uniformity; always ready to use. Won't spill, even if can is tipped—paint won't splash out either.

Excellent 1-coat coverage... the ideal paint to give new life to walls, ceilings and woodwork in any room of your home including kitchen, utility and bath.

Easy to apply—K-12 glides off brush or roller. Dries quickly to a velvet-like sheen. No runs, sags or brushmarks... overlaps and touchups won't show. Scrubbable finish is resistant to grease and dirt.

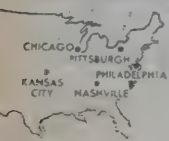

One coat covers most interior surfaces. On new surfaces we recommend that you first apply one-coat of Speed Primer (below) before applying K-12. One gallon covers about 450 sq. ft. depending on surface.

Choice of 13 decorator colors. Perfectly matched in either flat or semi-gloss finish: White, Pale Green, Pale Beige, Light Pink, Light Lavender, Off White, Silver Gray (1), Light Yellow, Moonlight Blue (1), Willow Green (1), Beige, Dusty Rose, Turquoise. Be sure to state color. Send for FREE Color Chart, Interior No. 2. See coupon below.

HOW TO FIGURE YOUR BTU REQUIREMENTS

Determine the total number of square feet of floor area in all rooms to be heated by heating unit. Multiply this total by 125. This figure gives average BTU requirements, including 25% allowance for heat loss. For more information, write Spiegel, Dept. 156

QUALITY Pump Systems PRICED LOW

Dependable and efficient—for use in new systems or modernizing—for large or small needs

All designed and constructed to withstand long years of service—with a minimum of attention

All with expensive features that you'll find only in pumps costing much more elsewhere

1 2 3 JET WATER SYSTEMS. Heavy duty 1/2 to 1 horsepower pump motors. Fully automatic... self-priming, 12, 30 or 42 gallon galvanized pressure tanks. Factory assembled, ready to install. Plus these features not usually found at these low prices! Ceramic seal... your best protection against leaks. Air space between pump and motor... protects motor from condensation. Built-in overload... protects motor against costly "burnouts" in case of power failure, overloads. (Drain cock, automatic pressure switch, automatic air volume control and jet assembly included.) See How To Order below, at right.

(1) For Extra Deep Wells and Pressures up to 70 lbs. Same as item 3, but with 2 impellers to exceed "city water" pressure. Extra heavy duty for rugged, continuous operation.

(2) For Shallow Wells. Deluxe unit... provides maximum efficiency from shallow wells (lifts up to 20 ft.).

(3) For Shallow or Deep Wells. Same as item 2, but converts to deep well without conversion kit. Throttling valve.

4 CENTRIFUGAL PUMP. Heavy duty 2.5 HP 4-cycle gas engine. Portable—weighs only 62 lbs. Self-priming, ready to use with strainer, recoil starter, couplings, etc. Up to 25.8 lbs. pressure at 60 ft. For pumps, cellars, excavations, marine bilge service, sprinkling, filling and emptying pools. Capacity to 7,200 gallons per hour... lifts to 25 ft. Couplings set for suction, discharge hose. Mailable promptly, from Lancaster, Pa. or Mail Order House. **109.25**

NOTE: systems 1, 3 and 5 are available for installation on 2-in. Deep Wells. (Single pipe jet systems.) For parts to convert to 2-in. deep wells, write: Pump Engineer, Spiegel, Department 156.

5 6 Select pump (5) from main table, at left. Choose Jiffy-Connect tank (6) from table, below. Every pump is fully convertible for shallow or deep wells. Pump price includes: heavy duty 1/2 to 3/4 horsepower motor with built-in overload protection, automatic pressure switch, jet for shallow or deep wells, throttling valve, automatic air volume control with tubing and fittings; plus Jiffy-Connect Kit (pump to tank). Easy to assemble. See How To Order Water Pump Systems, below.

TOUGH PLASTIC COLD WATER PIPE

7 thru 11 Rated up to 100 lbs. working pressure, yet costs 50% less than ordinary galvanized pipe! Exceeds U.S. Government commercial standards and complies with National Sanitation Foundation specifications. Toughest plastic pipe known. 100% high density virgin polyethylene withstands greater pressure surges and torque stress. Won't rust, rot, corrode or effect the taste of water. Smoother, mirror-like walls provide a high flow efficiency. Expandable—resists freezing. Perfect for piping water from well to house, irrigations or out-buildings... sprinkling lawn. No heavy machinery needed, no pipe threading. Easy to handle. Flexibility permits natural bends. Cut to any length with knife or saw. No need coupling for use as well. Stainless steel clamps on couplings (item 10 below) prevent separation. Grip-like adaptors connect plastic pipe to steel pipe where extensions are desired (see item 11 below). Not recommended for hot water systems. State pipe diameter, length and whether coil or per-foot preference. All items mailable.

Aluminum sliding doors glazed with Thermo or Single panes . . . weather-stripped to seal out wind, rain and cold!

1 SLIDING GLASS PATIO DOORS brightens rooms with natural sunlight . . . creates a feeling of spaciousness and adds interest to any room—yet protects from weather. Anodized aluminum frame always retains its rich, satin finish without rusting, pitting or corroding; assures you of long lasting beauty.

THERMO-GLAZED TYPE: 2 layers of clear glass hermetically sealed and separated by an insulating air space. Provides a 5/8-in. thick insulated wall of glass, is virtually fog and frost free. (Recommended for cold climates, air-conditioned homes.)

SINGLE-GLAZED TYPE: 1 layer of 1/2-inch clear glass . . . set in vinyl for moisture and vibration protection. Both types fully weather stripped to prevent drafts and water seepage.

All jamb styles and interlocking styles are 1-pc. tubular extrusions for greater rigidity. Right hand panel rides silently, effortlessly on Nylon rollers with ball bearings. Left hand panel (looking out from inside) is fixed. Easily installed. Frame squares itself even in out of square openings. Be sure to provide a flat surface for sill. We suggest making a rough opening after receiving unit.

Heavy extruded aluminum frame screen panel (sold separately) rides on independent rollers—won't twist or sag. Smart Lucite handle. All hardware, instructions included. Glass panels shpd. assembled; frame shpg. unassembled. Shpd. freight, Ottawa, Ill. Allow 14 days plus time in transit. Order from table. State catalog number, width, height.

DELUXE HEAVY PLASTIC INDIVIDUAL TILES—PRICED LOW
Marbelized Less Than **28¢** Square Foot Textone Less Than **31¢** Square Foot

Don't let the price mislead you—this tile is made to highest standards—over 30% stronger, 30% thicker than ordinary tile sold at this low price

Improved granular structure plus exclusive "Undergate" molding process makes tiles stronger than others of equal dimensions. Meets U.S. Bureau of Standards specifications for color fastness, thickness, heat-resistance and uniformity. Heavy .062 virgin polystyrene won't crack, chip, peel or stain. Non-porous surface won't absorb water, especially practical in bathrooms and kitchens. Cleans easily with a damp cloth.

True square corners and beveled edges for easy installation. Tile backs scored for better adhesion. Choose from conventional marbelized pattern or modern Textone (Gold Flecked) pattern. Cut with coping saw or borrow tile cutter below. Use adhesive below for mounting. 4 1/4 x 4 1/4-inch tiles, 40 to a carton. Covers 5 sq. ft. Order trim below.

HEAVY DUTY-POWER REVERSE

4 HP 26-inch **169.95** Or \$8 Monthly

Built to slash through hard sod or clay in large garden areas—keeps going thru hours of rough work

① You get power to spare from its big 4 HP engine, top maneuverability with power reverse and fingertip controls. Powered by a 4 HP, 4-cycle Briggs-Stratton gas engine, "Easy-Spin" starting system releases compression when you pull on recoil starter—cuts starting effort in half. Heavy cast iron flywheel gives smoother performance, maximum lugging power. Power reverse gets you out of tight spots without tugging. 26-inch tilling width converts to 20 or 12-inch; tines 15-inch diameter. Self-sharpening slasher tines are non-winding—save horsepower and fuel. Balanced with weight on tines for digging deep. Tills down to 9-inches, depending on soil conditions. Hardened roller chain runs completely enclosed in steel shell. Tine shaft supported by famous Timken tapered roller bearings. Upper bearings have zerks, lower bearings run in oil bath. Clutch on handle controls forward-neutral-reverse. Fingertip throttle control. Wheels adjust for deep tilling or improved maneuverability. 10 x 1.75 semi-pneumatic tires. Freight M93 W 6377. CHART NO. 4
TEEN SIZES 6T TO 16T

The teen age girls who wear our smart new Deb Teen styles show more bust and hip development than those in the younger girls' size range.

Their figures are just beginning to mature, they are taller than 7 to 16 girls. Their tastes call for just a bit more sophistication than before.

Miss Teen Ager will find all of the fashion-right coats, dresses, suits, sportswear and lingerie she needs for her exciting new round of high school activities.

JUNIOR SIZES 5 TO 17 REGULAR, JR. PETITE

The woman who wears Junior sizes has a figure of average proportions with small to average waist and bust. Fashions for the Junior figure are designed with the same waist and dress length as those in the Misses' range, and will fit both. They are listed in combined sizes—for example, 11-12, 13-14, etc.

Many Spiegel fashions are also offered in Junior Petite sizes. This range is shorter waisted and shorter in overall length, to fit those who are 5 ft. 1 inch or under.

MISS SIZES 6 TO 24 REGULAR, PETITE, TALL

Fashions in the Miss size range are designed for the woman of average proportions in bust, waist, hip and height. Many fashions are also offered in Petite Miss-Juniors for those under 5 ft. 3 in. and Tall Miss sizes for those 5 ft. 7 in. or over. These fashions are the same as Miss sizes except that waist lengths and overall lengths are proportioned to height.

HALF SIZES 12 1/2 TO 26 1/2 REGULAR, SHORT

Spiegel half size fashions are the smartest styles for mature figures. Larger in the waist and bust than our miss sizes, the half size fashions are also offered for short figures, with waist and skirt length proportioned accordingly.

Half sizes can be worn by all those who ordinarily wear women's sizes. For example; a 12 1/2 corresponds to size 32; 14 1/2 to 34; 16 1/2 to 36; 18 1/2 to 38; 20 1/2 to 40; 22 1/2 to 42; 24 1/2 to 44; and 26 1/2 to 46.

HOW TO MEASURE FOR GLOVES

Measure right hand, holding flat with tape measure around your knuckles, not including the thumb. Draw tape firm, but not tight. Number of inches is correct glove size. If hand measures between sizes listed, order next larger size.

HOW TO FIND YOUR RING SIZE

To find correct size, wrap a piece of paper 1/4 inch wide around widest part of finger. Cut ends to meet exactly. Lay paper on the chart below, with one end at "A". The reading at the other end is correct ring size. If end is between sizes, order the next larger size for good fit.

IF YOU PREFER, write to Spiegel for a size chart.

HOW TO MEASURE FOR

GIRDLES AND CORSELETTES

If you know the size that fits you, no need to measure. If in doubt about size, take your measurements as follows, over a slip or underwear, without a girdle.

- (A) BUST: This is your regular bra size. Place tape across upper chest (not over full part of bust).
- (B) WAIST: Place tape around smallest part of your waist.
- (C) HIPS: Place tape around fullest part of your hips.
- (D) LENGTH: Measure side length on body from waist down.

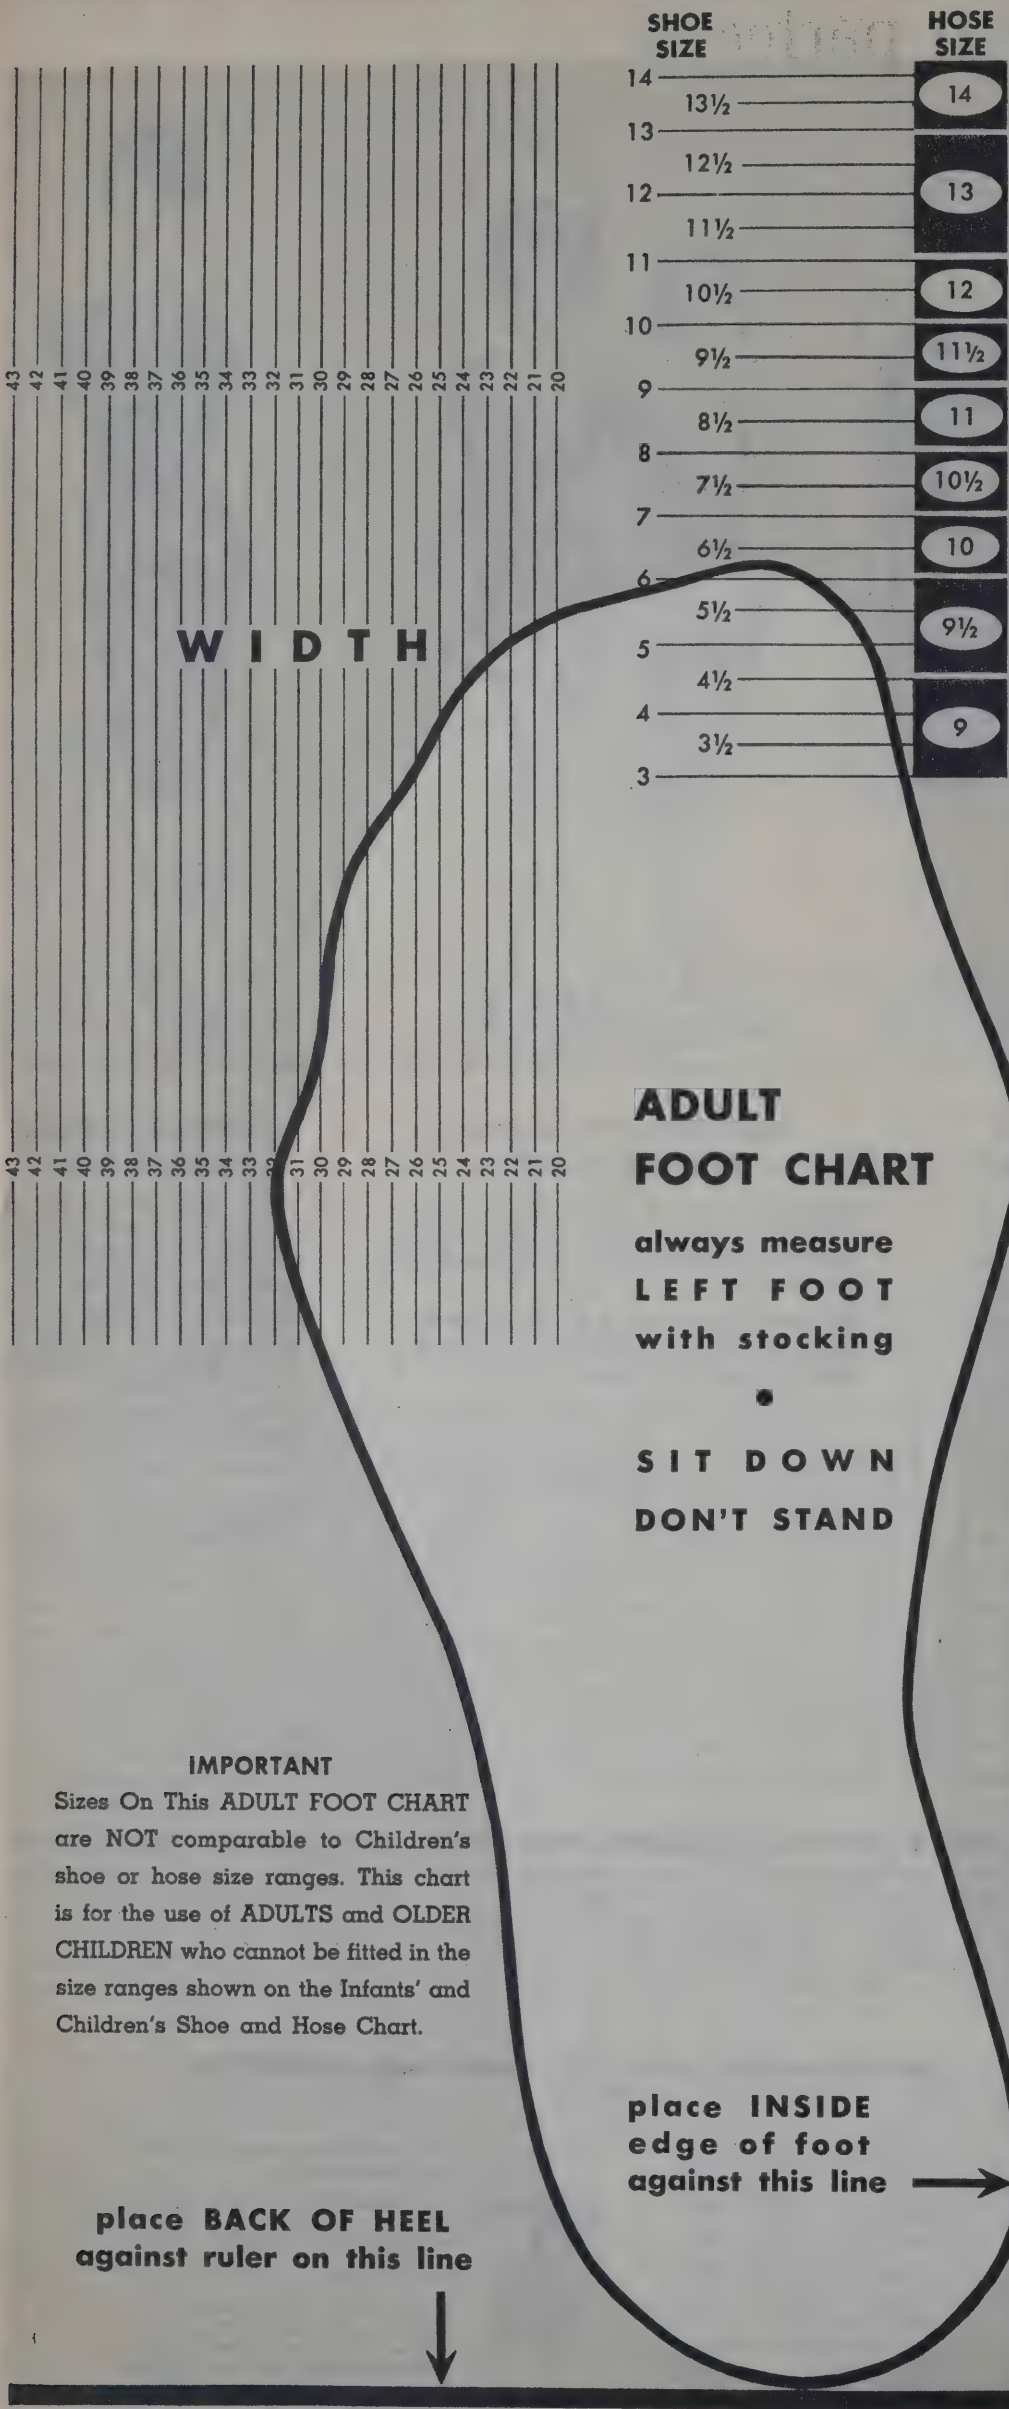

Be sure to select a garment that will fit your measurements.

FOR GIRDLES: Measure waist, hips and length. If your waist measures 26 inches and your hips 35 inches, a garment advertised to fit hips 9 inches larger than your waist will fit you.

FOR CORSELETTES: Measure bust, waist, hips and length. If your bust measures 38 inches and your hips 41 inches, a garment advertised to fit hips 3 inches larger than bust will fit you properly through bust, waist and hips.

How To Get A Perfect Fit
In Shoes And Hosiery For Adults
(and older children who cannot be fitted from the children's chart)

State your regular shoe size and width if you know it . . . OR
List numbers from a similar style old shoe that fits well . . . OR
Use the chart as directed
No matter which method you use . . .
WE GUARANTEE A PERFECT FIT

1. Place chart on floor.
SIT NATURALLY—DO NOT STAND.
2. Always measure left foot, over sock or stocking. Place back of left heel against a ruler on bottom line of chart, as indicated, making sure that inside edge of foot is against side line, as indicated.
3. Press toes down. For SHOE LENGTH size . . . read SHOE SIZE number at end of longest toe. If longest toe comes between two sizes, take the largest number. For HOSIERY size, read HOSIERY SIZE number at end of longest toe.
4. After you have found correct shoe length size, find the WIDTH LINE nearest the widest part of your foot. This line will give you SHOE WIDTH NUMBER. Refer to table below. Find your SHOE LENGTH size in first column and follow this line to SHOE WIDTH shown in column under your shoe width number. For example: Length 7 and width number 29 requires a SHOE SIZE 7, in B WIDTH. In ordering your shoes, state both length and width.

IMPORTANT

Please make certain that the shoes you select are offered in your SIZE and WIDTH.
Order REGULAR SHOE SIZE regardless of toe design.

ALL OVER THE U.S.A. SPIEGEL IS FIRST IN SAVINGS!

Compared item by item anywhere in the U.S.A. our Spiegel prices are lowest on fashion-right merchandise of dependable quality. Spiegel price leadership is built on 98 years of experience. Our aim has always been to give you the very most for your money—more fashion, more quality, more savings—and as one friend tells another, our business continues to grow. On the few items where price includes federal excise tax, our price will be immediately adjusted if tax is changed or removed.

ORDER REGULARLY TO GET YOUR SPIEGEL CATALOGS REGULARLY

Spiegel Catalogs offer the most convenient—and economical way to shop. By sending them only to those who buy regularly we keep our costs down—and our prices low.

• **OUR REGULAR CUSTOMERS ALWAYS GET CATALOGS**—and Sale Books because they order regularly, and their names therefore remain on our active mailing list for Catalogs.

• **FRIENDS OF OUR CUSTOMERS CAN GET CATALOGS**—by ordering from this Catalog or any Spiegel Sale Book. Their names will then be placed on our active list to receive future Catalogs.

EACH ORDER YOU PLACE IS RECORDED on your personal record card. Before mailing our Catalogs, your card is reviewed and if recent purchases show you to be a regular customer, a Catalog is sent. You can assure yourself of getting each succeeding Catalog by ordering from those already in your home.

After the city, before the state
The ZONE keeps your mail from being late!

POSTAL
ZONE
NUMBER

The Post Office has divided many of the larger cities into Postal Zones to speed mail delivery. Be sure to include ZONE number when writing to these cities. Example: Spiegel, Chicago 9, Ill.

Also, if you live in a city with Postal Zones, be sure to include YOUR zone number in your return address—after the city, before the state.

HOW TO MEASURE CHILDREN'S FEET FOR SHOES AND HOSE

Use Chart to Order Infants', Children's and Teens'

Shoes and Hose. It's EASY and ACCURATE:

Girls who measure over top size 4 and Boys over size 7 can also order from the adult shoe and hose pages, but should then use Adult Shoe and Hose Size Chart.

We Guarantee Proper Fit

TO FIND SIZE

1 Place chart on floor, have child seated naturally—NOT standing.

2 Always measure left foot, over stocking or anklet. Place back of left heel against ruler on bottom line, making certain that inside edge of foot is against line, as illustrated.

3 Press toes down and read length number on chart at end of longest toe.

THIS IS CORRECT LENGTH SIZE

If big toe comes halfway between two numbers, take largest number.

4 Find width line nearest the widest part of foot. This will give you shoe width number. Find length size on table below and follow line to shoe width shown under width number.

Be Sure Shoes You Order Are Offered In Size You Need.

How to order DRAPERIES, CURTAINS

Measuring Is Important. Decide the type of rods or fixtures you will use, and where they will be placed.

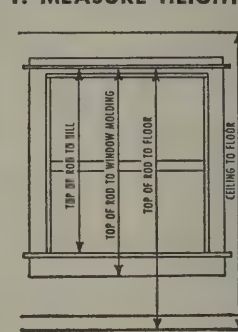

1. Measure for Length, from top of rod to length you wish your curtains or draperies to fall. See sketch below. For all draperies, add one inch to this measurement to cover the rod. For fiber glass draperies, select a length that will hang free without touching ceiling or floor. For curtains and tailored panels, make no allowance for heading above the rod, since this is always provided, and is in addition to the lengths quoted in the catalog description.

2. Measure for Width. Pleated draw drapery widths listed in catalog are finished width, with pleats in place. The measurement you need is exact width of area to be covered, plus at least 10 inches for center overlap and rod ends. Check widths listed in catalog, and if you need an "in-between" width, order next wider width or another pair, whichever is practical.

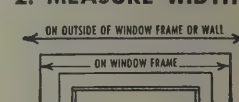

For Unpleated Rod-Pocket Drapery Panels and Curtains measure between rod fixtures for width to be covered, then add whatever amount desired for proper fullness. Unpleated draperies and cottage style curtains should have an overall width at least 1½ to 2 times the distance between rod fixtures; for other styles see sketches below.

Be Sure of Style, Pattern and Color. Turn again to pages where draperies or curtains are described, and make sure the styles, patterns and colors you desire are available in the sizes you require.

1. MEASURE HEIGHT

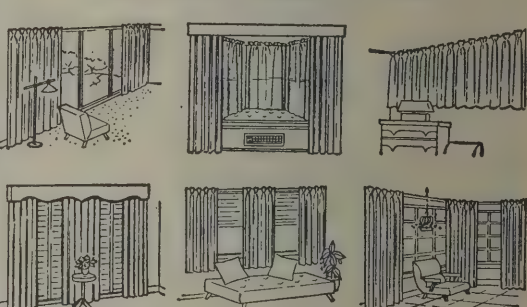

2. MEASURE WIDTH

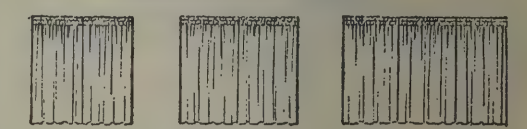

3. CHECK STYLE, PATTERN, COLOR

YOU CAN PLAN DRAPERIES MANY WAYS

POPULAR CURTAIN TREATMENTS

TAILORED PAIRS AND PANELS

Always order tailored pairs and panels wide enough to give you from 1½ to 2 times the width of the space to be covered, to allow for graceful fullness. For extra wide windows, simply order more pairs or panels.

STRAIGHT PRISCILLA

To hang Priscilla style, on a single rod, order curtain pairs that give you a total width of at least 1½ to 2 times the actual width of the window space.

SEMI CRISS-CROSS

To hang semi criss-cross, on double rod, order curtain pairs that give you a total width 2 to 3 times the actual width of the window space.

FULL CRISS-CROSS

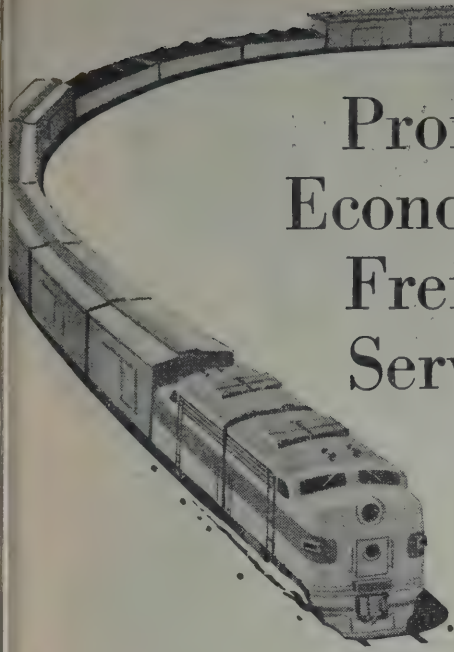

To hang full criss-cross, on double rods, order curtain pairs that give you a total width 3 times or more the actual width of the window space.

TO ORDER TIER AND CAFE CURTAINS

Choose sizes for desired length. Suggested combinations below allow about 6 inches overlap on each tier. For attractive fullness, order enough pairs to total 1½ to 2 times window width. Be sure lengths you need are available in the style you select. All valances are sold separately unless catalog states otherwise.

Choose These Combinations To Hang In 2 or 3-Tier Groupings

IF WINDOW LENGTH IS ABOUT—	
54 in.—Use 2 pairs in 30-inch length.	
63 in.—Use 2 prs. 36-in. length; or 3 prs. 26-in.; or 1 pr. 45-in., 1 pr. 30 in.	
68 in.—Use 2 prs. 36-in. length; or 1 pr. 40-in., 1 pr. 36-in.; or 3 prs. 26-in.	
72 in.—Use 2 prs. 40-in. length; or 3 prs. 30-in. length.	
81 in.—Use 3 prs. 36-in. length; or 2 prs. 30-in. and 1 pr. 36-in.	
90 in.—Use 3 prs. 36-in. length; or 2 prs. 36-in. length and 1 pr. 30-in.	

Prompt Economical Freight Service

Spiegel PREPAYS The Freight On
All Budget Power and Charge Orders
And Includes In Your Account...

NO NEED TO FIGURE

**It's A Cash Order Here's
How To Estimate Freight Charges**

Freight charges are ordinarily collected on delivery. However, there is no freight agent in your town, please estimate charges and send money to cover at the time you order. We will refund to the penny if you send too much.

DELIVERY TO DOOR

Many railroads offer direct to home delivery service on freight shipments within city or village limits. Consult your local freight agent about this service.

BUILD UP YOUR ORDER AND SAVE

Freight shipments of 100 pounds or less take the 100-pound rate, while charges on shipments over 100 pounds are based on the actual weight. Therefore, if freight order does not total 100 pounds and all items are shipped from same place, it pays to order other needs at the time and build up the total to 100 pounds.

Freight charges are based on distance, so you can use the rates at right to estimate charges from our shipping point to your home. Find the item, or similar item in the list at top, right—then check chart below for proper rate per 100 lbs.

Minimum charge for freight is the rate for 100 lbs., but it can never be less than \$4.00. On mixed orders under 100 lbs., figure entire order by the item with the highest rate as shown in list at right.

Since rates are approximate—the actual charges you pay may differ slightly.

WHEN WE SHIP FROM FACTORY

On shipments direct from factory you are charged transportation from factory location instead of from our plant.

HOW MERCHANDISE IS CLASSIFIED BY RATE

If item you want is not listed, charges can be estimated by rate quoted for similar merchandise.

Fast, Dependable Express Service

NO NEED TO FIGURE

Budget Power and Charge Orders. Spiegel prepays the express charges and includes in your account. It's another budget Power service for your shopping convenience.

Cash Orders. It is not necessary to send money for express charges since they are collected by agent in your town at the time of delivery.

Merchandise is shipped from factory, you pay transportation from factory instead of our plant. Rates shown are estimated, actual charges you pay may differ slightly.

ESTIMATED EXPRESS RATES

Since these rates are approximate—the actual charges you pay may differ slightly. If rates change during life of this catalog you will be billed at the new rates.

On BUDGET POWER and CHARGE ORDERS

No Need to Figure—We Prepay Transportation and Include
In Your Account—It's Another Budget Power Service!

On CASH ORDERS . . . Please Include Money For Postage

We Refund To The Penny If You Send Too Much

Parcel Post Is Best For Packages Weighing Up To 40 or 50 lbs. . . and packages weighing as much as 70 lbs., measuring not more than 100 inches in length and girth (distance around widest point) can be shipped by Parcel Post in all zones, with some exceptions. If catalog says "Freight or Express," item cannot be shipped Parcel Post.

You Can Estimate Charges by checking the shipping weights listed in the catalog description of the merchandise, using the Table at right and the Zone Map. Shipping weights are approximate, but you pay only the actual postage as shown on the parcel, and we refund the difference if you send too much.

It Pays To Build Your Order To Full Pounds since on packages over 16 ounces the Post Office counts any fraction of a pound as a full pound.

On Cash Orders, Please List Weights On Order Blank. When item is advertised "Mailed Free," note this in space for shipping weight. Total the weight column and change ounces to full pounds.

Send Personal Check or Money Order—WE DO NOT ACCEPT STAMPS. The Postal Service asks you not to mail coins or paper money. Use Post Office Money Orders, available at any postal station or from rural carriers; or American Express Money Orders, available at Railway Express Agencies, most Western Union offices, and many other offices. The rates are the same in most cases. Post office rates are:
1c to \$10.20c \$10.01 to \$50.30c \$50.01 to \$100.35c

We'll Ship SPECIAL DELIVERY On Request. Just mark face of order "Special Delivery Mail," and on Cash orders add enough money to cover. Rates:
2 lbs. or less.55c 2 to 10 lbs.65c Over 10 lbs.80c

PARCEL POST RATE TABLE

Use this chart and zone map to figure rates.

You will be billed at the U.S. Parcel Post rates effective when your order is shipped. We refund to the penny if you send too much for postage.

MEASURE AS SHOWN FOR MEN'S READY-TO-WEAR CLOTHING

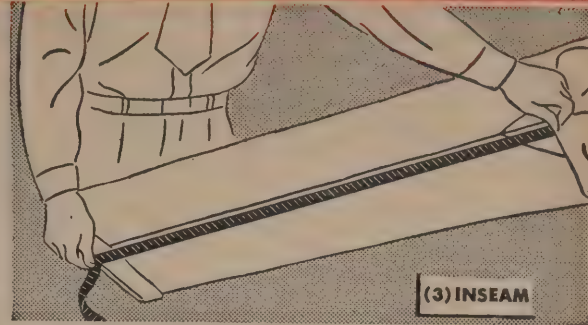

(1) Chest for coat. Have someone measure you, with arms down, and tape well up over shoulder blades.

(2) Waist. Take trousers that fit well, measure as shown and double the figure. Or, remove vest and belt, and measure around body, at trouser waistband. Hold tape snug, not tight.

(2) WAIST

(3) INSEAM

(3) Inseam Length. Take trousers that fit well, lay flat as shown. Place tape along inside leg seam, and measure from crotch seam down to trouser bottom. Be sure your length is available.

HOW DO YOU PREFER TO BUY—CASH, BUDGET POWER MONTHLY PAYMENTS OR 30-DAY CHARGE

If you enclose money with the order, please use the spaces provided to tell us how you want it used.

Nothing to figure on BUDGET POWER Monthly Payment and 30-Day Charge orders. We send Personalized Monthly Statements.

Check Square that tells us how you want to buy...Cash...the Budget Power Monthly Payment Plan...or 30-Day Charge.

If For Cash, please fill in shipping weights on parcel post items, as stated in catalog, figure total pounds, and list amount you are enclosing for postage, and for tax, if any.

If For Budget Power Payments or 30-Day Charge, check proper square and, on Budget Power orders, list down payment enclosed, if any. Then turn to the other side of order blank and either sign your name as an established customer, or fill out the application to open an account, if you are ordering on credit for the first time.

BUDGET POWER

IS SO RIGHT FOR YOU

You get the big plus. Enjoy more of the things you want for your family. Sensibly, without disturbing savings, you can use thrifty Budget Power,* the plan that gives you up to 50% more in continuous buying power for the same low monthly payment. *Send in your first order when you open a Spiegel Account.* We will set aside an actual amount of credit for your use . . . a Credit Trust Fund . . . so you will always know just how much more credit is available to you. The Fund can be in any amount up to \$1,000, depending on income.

- Simplest, easiest to use monthly payment plan—anywhere
- Lowest terms and longest time to pay in our history
- Prudential insurance protection at no added cost to you
- Personal Credit Trust Fund to help you plan ahead
- You can "Add On" an order any time—No Money Down
- Monthly statements tell you exactly where you stand
- All shipping charges prepaid and included in your account
- One low monthly payment buys anything Spiegel sells

TO OPEN AN ACCOUNT

To use Budget Power for the first time, fill in the application on the back of the Order Blank when you send your order. The order must be for \$10 or more.

PLEASE SEND 10% DOWN PAYMENT ON FIRST ORDER ONLY

Your credit at Spiegel is always good up to the *full amount* of your Credit Trust Fund. Use any or all of it, as you prefer. Monthly payments depend on the amount you are using.

When you buy, you draw from your Fund . . . but every payment you make goes right back in to be used *over and over again*.

You can "add on" new orders at any time . . . as long as the total amount you owe us does not exceed the amount of your Credit Trust Fund. You have *continuous* buying power.

TO "ADD ON" ORDERS—NO MONEY DOWN

You can charge new purchases No Money Down, any time the balance on your Account is less than your Credit Trust Fund. Add new order to present unpaid balance, if any. If you send a payment with your order, subtract it from your balance in advance. Then—

- Check Terms at right to find monthly payment on new total balance.
- If monthly payment shown is same or less than amount you are now paying, there will be *no increase* in your monthly payment.
- If monthly payment comes to more than you are now paying, your new payment will be amount shown opposite new total balance.

30-DAY CHARGE PLAN—IF YOU PREFER

Budget Power members always have the privilege of using their Credit Trust Fund the 30-day charge way if they wish. This means, of course, that each statement is paid in full within 30 days of the time the merchandise is shipped, with no service charge. There is a space on the order blank where you can check either "monthly payments" or "30-day charge." Charge orders must be for \$10 or more.

CASH ORDERS

If you prefer to send cash please do so with confidence. Our pledge—Satisfaction Guaranteed or Money Back covers every purchase. On cash orders, please include parcel post and tax, if any. Overpayments are refunded to the penny. Since we cannot handle C.O.D. orders economically, we do not accept them except in cities where we have Metro Package Delivery.

YOU GET MORE FOR THE SAME MONTHLY PAYMENT

ORDERS OVER \$720. For monthly payments on balances of more than \$720 . . . or to request a larger Credit Trust Fund, please write us. Your Prudential Life Insurance protects you on any balance up to \$1000.

***SERVICE CHARGE.** Based on amount owed as of your last statement, a small service charge of 1½%, minimum 50¢, is added each month. As balance decreases, service charge is reduced. No carrying charges.

Big⁺Plus BUDGET POWER Benefits

Monthly Statements. No "bookkeeping" for you. Each month your statement provides a record of all transactions to be checked at a glance. It also tells just where you stand, and how much more "buying power" is available in your Credit Trust Fund.

No Need To Figure Postage or Freight. All shipping charges are prepaid and included in your account.

Satisfaction Guaranteed or Money Back. The merchandise in Spiegel catalogs is honestly pictured and described. If for any reason you are not satisfied, return the merchandise and we will exchange it or refund your money, according to your wishes. This pledge has been made—and kept—for 98 years of Spiegel service.

Prudential Life Insurance At No Added Cost To You. When you join the Budget Power Plan, Spiegel pays the premium on Prudential Life Insurance for the wage earner in your family, at no added cost to you, now or forever. There's no medical examination, no questions, no red tape. We made this valuable insurance protection an exclusive Budget Power benefit so you can use all the credit available to you with peace of mind. Should death strike, the Prudential Insurance Company of America will pay any balance on your Spiegel Account—up to the \$1,000 limit.
